## MANY SURE TO DIE ON ROAD TO ALASKA

THOMAS SAMMONS TELLS OF  
THE HARDSHIPS.

Hardy Young Men Killed By the  
Strain of Packing Freight Across  
the Mountains—Sample Outfit of a  
Party of Miners Described in  
Detail.

Thomas Sammons, who is now in  
Tacoma, writes to The Gazette about  
the foolish gold seekers who are start-  
ing for Alaska with winter just set-  
ting in. He says:

At present the Alaska mountain  
passes are almost impassable. Here-  
tofore only a comparatively few people  
went over them. They went during  
February and March, and on top of  
the snow. They made no trail worthy  
of the name, and now all of a sudden  
three or four thousand people try to  
wedge through the mountain passes at  
once, and of course they get clogged  
and jammed. That would be the case  
even though the trails were in good  
condition. By next spring, however,  
the passes will be in fair shape and  
those who wait until next spring will  
have the advantage of the work that  
is now being done by the great crowd  
now going in.

Packing is Hard Work.  
However, most people who have  
started are so enthusiastic they will  
never turn back. A few have never-  
theless given up the fight for gold  
and have come home. Yesterday one  
young man, the son of a leading  
lawyer, arrived here from the Chilcoot  
Pass. His name is Bill Hudson and  
he is a very sick young man. He was  
fitted out with a fine outfit and his  
parents were reluctant in allowing the  
boy to go. He is seventeen years of  
age and of athletic build. But pack-  
ing an outfit across the mountains  
was too much for him. His kidneys  
were affected so much that it would  
probably have killed him to continue  
the journey. In packing an  
outfit of half a ton, which is an eight-  
teen months' supply, across the moun-  
tain passes a man who has to walk  
thirty miles for every mile of headway  
made. In other words the gold hunter  
would travel over the pass thirty times  
in getting their outfit over. This is  
killing to those not strong and  
healthy. Some camp by the side of  
the trail and watch the struggling ex-  
pect-to-be millionaires trudge past.  
Some, like young Hudson, turn back.  
Some sell their outfit and secure work  
as laborers in the mills of Alaska, hop-  
ing thereby to save what  
money they have and start  
north again in the spring.

They Will Press Through.  
But there are exceptions to all rules.  
Today a party of California miners  
left Tacoma for Skagway and Dyea at  
the head of the passes. They know  
"their business" so to speak. They  
know all about mines and mining.  
They know all about Alaska, and  
still they are going in at this unfavor-  
able season. Why? Because they can  
travel where tender feet will fall by  
the wayside. They can select the pass  
that offers the least resistance.  
Perhaps they will select the Copper  
river route and prospect along its  
shores all winter. Even if they can-  
not reach Dawson City by way of the  
much traveled passes this winter they  
will prospect wherever they are. They  
can get along anywhere and they rep-  
resent a "syndicate" which expects  
them to work all the time and keep  
a-going somewhere.

## ROMANCE AND REALITY.

Hero of the Western Tales to Be Seen By  
Janesville People.

How time does fly! This reflection  
is awakened by the announcement  
that Buffalo Bill's Wild West and Con-  
gress of Rough Riders of the World is  
coming to this city on Sept. 14. It  
does not seem long to middle-aged  
men when they were boys, and reading  
Ned Buntline's thrilling romances  
about Buffalo Bill. Very few people  
in the east thought then that Buffalo  
Bill was anything more than the crea-  
tion of an extremely fertile imagina-  
tion. It did not take very long for  
the truth to become known, and  
it greatly injured the reputation of the  
author as a novelist, and he came to  
be properly set down as more of a  
chronicler than a creator. The public  
learned that Buffalo Bill was a real  
identity and a most important one,  
too, in his country's warfare with the  
Indians. Instead of being a mere  
dime novel hero he was soon recog-  
nized as a hero in real life.

His work as a soldier, hunter, guide,  
and scout, which gave him his  
real fame, once ended, he very  
wisely took the advice of  
some of his admirers to show his won-  
derful personality to the public that  
already had read so much about it.  
His success was instantaneous. For  
a time he confined himself to the stage  
but his narrow bounds were too small  
for him and then came his Wild West.

As time has sped on the value and  
attractiveness of this most unique  
entertainment have grown apace. In-  
dian warfare is now a thing of the  
past. Nearly all the surviving partici-  
pants in it, save those who took  
part in the last spasmodic attempt of  
the Indians to revive it at  
Pine Ridge, are waving a hairy flag of  
truce at the common enemy—Time.  
Men and conditions which marked the  
advance of civilization over the bound-  
less reaches of far western plains,  
have nearly all passed the boundary of  
existence and we may know them not  
much longer. Their best and in  
many respects only form of preserva-  
tion is in this same Buffalo Bill's ex-  
hibition; when he is gone the life and  
lives he portrays so realistically will  
become only traditional.

So a visit to this exhibition means  
something more than a diversion for  
an afternoon or an evening. It means  
a glimpse into American history. Your  
children's children must all learn all  
they may ever know about it out of  
books. Better let them learn it at the  
knees of your children.

## WOULD BUY FAIR GROUNDS

Business Men Have in Hand a Plan to  
Make a Half Mile Track

A half mile race track with a bicy-  
cle track inside may be seen at the  
Fair grounds before next season.  
Business men talk of buying the forty-  
seven acres, selling off the west half  
and making the east half into a racing  
quarter by itself with a first class half  
mile track. A base ball park would  
also be laid out.

"There is something more than talk  
about this plan," said a business man  
last evening. "Those who now have  
the proposed scheme in hand mean  
business if the grounds can be pur-  
chased at a reasonable price."

Miss GRACE KNOFF, formerly of this  
city, has had F. L. Haskell of Chicago,  
arrested on a charge of attempted  
murder, assault, riot, malicious mis-  
chief and threats to kill. The build-  
ing which Haskell occupies is rented  
from Mandel Brothers, and the upper  
part has been sublet to Miss Knoff,  
who keeps boarders. She says he  
wants to get rid of her, and when she  
refused to get out Haskell dragged her  
to the stairway, kicked her and put  
her out. Such a commotion followed  
that Haskell swore out a warrant  
charging Miss Knoff with threatening  
to kill him.

## NEWS OF THE COUNTY IN BREEZY BITS

SPECIAL SERVICES HELD IN  
AFTON CHURCH.

Rev. W. A. Spinney of the Baptist  
Church, Beloit, Officiates—Most of  
the Tobacco in Porter Is Under  
Cover—Merry Party At Emerald  
Grove.

Afton, Aug. 31—This is the week  
of special services at the Baptist  
church, Rev. W. A. Spinney, of Beloit,  
preaching each evening. At the in-  
itial meeting held last Sunday evening,  
there was a very large congregation  
and much interest was manifested by  
those present, in the words of the  
speaker. Charles Hayes, the singing  
evangelist will assist in the meetings,  
beginning Tuesday evening. After a  
lingering illness, Mrs. Frank P. Starr,  
passed from the scenes of earth last  
Monday evening at 7:30 o'clock, at  
her home in this place. While not  
wholly unexpected, yet her death  
came as a great shock to all, for her  
condition had appeared to be improved  
during the morning. But a decided  
change for the worse came early in  
the evening and in her weakened con-  
dition she was unable to rally. The  
deceased was a worthy woman, pos-  
sessed of a large circle of friends, who  
will learn with deep sorrow of her  
death. A husband and daughter are  
left to mourn the loss of a true wife  
and she is also survived by a brother,  
who resides in Idaho. Arrangements  
for the funeral have not been made at  
this writing. Frank Blunk made an  
overland trip from Hebron, Ill., Mon-  
day, for the transaction of business  
here. A baby cloak or wrap was  
found in Iowan's grove after the Sun-  
day school picnic and the owner can  
find the same at the home of W. J.  
Miller in this village. Messrs. and  
Mesdames T. W. Goldin and W. B.  
Conrad, Miss Mary Barker, W. L.  
Fifield, Herbert Goldin and Bradley  
Conrad formed a merry party who  
drove down from Janesville last Sat-  
urday and "camped out" over Sunday  
at "Oakwood Farm."

## LATE NEWS FROM PORTER.

Most of the Tobacco Under Cover—Leyden  
Ball Players Beaten.

Porter, Aug. 31—Mrs. Watson of  
Stoughton, was the guest of her pa-  
rents, Mr. and Mrs. H. Pratt, the past  
two weeks. She was accompanied by  
her little daughter. Mrs. Fred Phifer  
of Edgerton, is staying at her parental  
home, while her mother, Mrs. Sweeney,  
is visiting her sons in Iowa. Miss  
Grace Brown of Edgerton, has been  
spending the past few weeks with  
Mrs. C. White. A very enjoyable pic-  
nic was given in Wallin's grove, last  
Thursday, by the Fulton and Edgerton  
Sunday schools. Miss White of  
Edgerton, visited friends, Thursday.  
The Misses Stasia and Minnie Hay-  
ward of Evansville, and A. M.  
McCombs of Eureka, were guests of  
Maggie McCarthy, on last Sun-  
day. The trio came on their wheels.  
Mr. and Mrs. I. E. Connors and Mr.  
and Mrs. Skelly of Janesville, spent  
Sunday at S. Deoley's. Mrs. Briarty  
returned to her home in Janesville on  
Friday, after visiting with friends  
here. A new iron fence around what  
is known as the Taylor cemetery, adds  
much to the general appearance of the  
place. Mr. and Mrs. Ed. Fox are re-  
joicing over the safe arrival of their  
first born—a son. All doing finely.  
The Cornstalks and Leydenites crossed  
bate on Sunday, resulting in a glow-  
ing victory for the former. Most of  
the tobacco in this locality is safely  
housed. It is the finest crop grown  
here in years.

## MERRY PARTY AT THE GROVE

Mr. and Mrs. E. N. Ransom's Home Re-  
sounded With Mirth

Emerald Grove, Aug. 31—At the  
home of their parents, Mr. and Mrs.  
E. N. Ransom, Miss Nellie V. and  
Volney Ransom entertained between  
fifty and sixty of their little friends at  
a birthday party, last Saturday after-  
noon. From 12 until 6 o'clock it was  
a merry crowd who enjoyed the sport  
on the spacious lawn. At 5 o'clock a  
dainty and complete supper was  
served and each one was given a  
souvenir of the occasion. The few  
older ones who looked on no doubt  
wished they were young again. About  
twenty from here drove to Delavan  
lake and picnicked on Tuesday.  
There will be a Y. P. S. C. E. social  
at the home of Jerome Boynton, Fri-  
day evening of this week, September  
3. Peaches and cream will be served.  
School commences Monday morning,  
September 6. Walworth county fair  
was advertised here last week. Mrs.  
W. A. Dean and Mrs. Charles D. Fitch  
visited at Fort Atkinson last week.  
Everybody is complaining about the  
dusty roads, and wishing for rain.  
Overalls and cottonade pants that will  
fit, at Gillies & Jones.

## MANY GO TO MONROE FAIR

Racing Program Proves a Strong Attraction  
For Janesville Horsemen.

Judging from the delegation that  
left this city on last evening's train  
for Monroe, there are still many peo-  
ple here who long for a first class fair.  
The Green county fair is now in full  
blast and the races are said to be very  
good. In fact the racing was what  
drew most of the Janesville crowd.

Gardner as "Karl."

The plot of "Karl the Peddler" is  
said to be well developed and realistic.  
The singers are artists and have splen-  
did voices. Gardner will sing several  
new and pretty songs with his old-  
time sweetness and effect. The per-  
formance is a charming one, and will  
prove a delightful entertainment to all  
who hear it.

## WOULD MAKE PEARL BUTTONS

Janesville Selected As a Promising Site by  
a Racine Man.

E. Lippert is anxious to start a pearl  
button factory in Janesville. He  
writes this letter to The Gazette:

RACINE, Aug. 28—I would be pleased  
to know of any person or persons in  
your city who could be interested in  
starting a pearl button plant. As I  
have just completed a plant in the  
above city I have used some of the  
material which I see by the papers is  
gathered near your city. It makes a  
splendid button. I am an expert in  
the manufacture of pearl buttons and  
make a business of supplying manu-  
facturers of buttons of every descrip-  
tion for their purpose. With an out-  
lay for machinery and plant say from  
\$1,500 to \$2,000 and usually the shell  
found near your city I can show any  
business man that he can make a hand-  
some profit even with a small plant of  
this size. I would educate them in  
every detail of the manufacture of but-  
tons. So if you know of any whom  
this may interest please send me the  
address and I will call and see them.

bleeding, and suffering great pain,"  
says Mrs. E. J. Schall, with Meyer Bros.

wound, and applied Chamberlain's Pain  
Balm freely. All pain ceased, and in a  
remarkably short time it healed with-  
out leaving a scar. For wounds, sprains  
swellings and rheumatism I know of  
no medicine or prescription equal to it.  
I consider it a household necessity.

Dear Sir:—We purchased a Brau-

and can truthfully say that I take  
pleasure in stating that it has given  
the most perfect satisfaction in our  
home. Its capacity for standing in  
tune is certainly wonderful and the  
tone today is as good if not better  
than the day we bought it, and  
would recommend it to any one  
wanting a first-class Piano.  
Respectfully Yours,

Certainly you don't want to suffer with dyspepsia, constipation, sick headache, salivary skin and loss of appetite. You have never tried DeWitt's Little Early Risers for these complaints or you would have been cured. They are small pills, but great regulators. C. D. Stevens.

Good Advice.

He had made a confidante of her dearest friend in the hope that she might help him in some way, and the dearest friend—well, everyone knows how it is with dearest friends sometimes when it comes to love affairs.

"I feel that she is so much above me that I hardly dare hope," he said despairingly.

"In that case," she replied, sympathetically, "why don't you move into a top flat, too?"

Girls will be girls, you know, whether they are dearest friends or not.—Chicago Post.

Gave Himself Away.

"George, do you know that you came home at three o'clock this morning and acted dreadfully silly?"

"What did I say?"

"Well, for one thing, you called me a wingless angel."

"Did I say that?"

"Yes."

"I'll have to own up, my dear. I was drunk."—Cleveland Plain Dealer.

The Widow's Way.

He—They say that wedding rings are going out of fashion.

She—Oh, I don't care. If you wish to dispense with the ring, dear, it will make no difference to me. But why didn't you give me some warning of what you were about to say? This is so sudden.

And he thought of home and mother, but it was too late.—Cleveland Leader.

Legal Advice.

Mrs. De Temper—I am not happy with my husband. Shall I drive him away?

Lawyer—His life is insured in your favor, isn't it?

"Yes, I made him do that before we married."

"Well, don't drive him off. He'll die quicker where he is."—N. Y. Weekly.

So Persevering.

Mrs. Gummey—Miss Broadway is to come out this season.

Mrs. Glanders—What a persevering little thing she is.

"What do you mean?"

"She has come out regularly for the past six or seven seasons."—Louisville Courier-Journal.

All in Seeming.

"Come up to my house to-morrow night," said Herr Pantoffel. "I'm going to celebrate my golden wedding."

"Golden wedding? Why, man you've only been married three years."

"I know it; but it seems like 50."—Fliegende Blaetter.

## EXAMINATION FOR POSITIONS

Board of Fire and Police Commissioners To Hold Their First Examination.

The board of fire and police commissioners will meet in the city council chamber October 11, A. D. 1897, at 2 o'clock p. m. for the purpose of examining applicants for positions in the fire and police departments of the city of Janesville. Blank applications and copies of the rules adopted by the board may be obtained from the chiefs of the respective departments. Applications should be filed with the secretary of the board as soon as practicable. The members of the board are anxious to improve, if possible, the efficiency of both departments and solicit applications for positions from good men. The pay is good and the positions permanent.

A Tried Remedy for Biliousness

Those who suffer from disorder or inaction of the liver will never get the upper hand of the unruly organ so long as they use such irrational remedies as blue pill, calomel and podophylin. But from the tried and popular medicine, Hostetter's Stomach Bitters, they may expect relief with a certainty of obtaining it. The influence of the Bitters upon the great biliary gland is direct, powerful and speedily felt. The relief afforded is not spasmodic, but complete and permanent. The shallowness of the skin, faded appearance of the tongue, indigestion, costiveness, headache, nausea, pains through the right side and shoulder, in fact every accompaniment of the obstinate complaint are entirely and promptly removed by a course of this inestimable medicine. In the half of which testimony is constantly emanating from every quarter, and from all classes of society.

Put Poison in the Eggs.

Metropolis, Ill., Sept. 1.—A wholesale poisoning occurred in the family of Henry Miller, living in the suburbs of this city, Tuesday. The poison, said to be rough on rats, is said to have been administered by Nora Miller, a daughter of Mr. Miller, in scrambled eggs at breakfast. Only one death has occurred, that of a girl baby, aged about 18 months. Nora Miller is generally supposed to be demented. She was not affected by the poison. There is little hope of the recovery of the father, and it is possible that two or three other members of the stricken family will lose their lives.

Smuggling on Puget Sound Charged.

Port Townsend, Wash., Sept. 1.—It is probable that warrants will be issued by the United States authorities within a few days for the arrest of several persons in the Puget Sound customs district for complicity in alleged landing of Chinese in the United States. An investigation by government officials, it is said, shows that there has been not only wholesale smuggling of Chinese but that a large amount of contraband goods of various kinds has been brought into the United States through this port.

Will Do Missionary Work in China.

San Francisco, Sept. 1.—The Cumberland Presbyterian church has begun mission work in central China. The first representatives of this denomination to enter this vast empire will be Dr. O. T. Logan and wife of Illinois, the Rev. H. L. Walker and wife of Alabama and the Rev. T. J. Preston of Texas. They are to locate near Hankow, some 400 miles up the Yang Tse Kiang river from Shanghai.

Gold on the Yellowstone.

Duluth, Minn., Sept. 1.—Arthur and Harry Thomas, two brothers, claim to have struck it rich on the Yellowstone in Montana, between Billings and Miles City. They have just come here with \$2,400 in gold nuggets which they claim to have washed in three weeks. Hundreds of men, they say, are at the diggings.

To Pops to Watch Venezuela's Election.

New York, Sept. 1.—A special to the Herald from Caracas says: "The government has prepared to maintain order on election day, September 1, and has increased the garrison. It is probable, however, that nothing of a disorderly nature will happen."

## A GREAT CORN YEAR.

Present conditions are favorable to a heavy foreign demand for corn and the best thing about a larger demand is that it leads to a better acquaintance with maize as an unsurpassed article of food. It needs only to be known to be valued as such throughout the world.

Our corn crop sometimes amounts to 2,000,000,000 bushels and this could be indefinitely increased if the markets offered a suitable reward to the farmer. In any case the tiller of the soil in America is familiar with its great advantages. If he can not sell it at a fair price he can feed it and thus enrich the soil, a form of wealth not identified with raising wheat. In an extremity, always to be regretted, it serves as fuel, which again is not true of wheat. A growth in the foreign demand for corn, with fairer proportionate prices, is so much added to the resources of our farmers, and a basis of steady prosperity for American agriculture. Everything that tends to proclaim the merits of maize as food, strengthens the world against famine. There was a time when the starving Irish rejected corn meal because methods of preparing it were unknown to them, and they had always regarded it as grain for cattle. Many places still exist where enlightenment is needed concerning the product of a magnificent plant.

## BUSY DAYS IN SIGHT.

The commercial reports agree that trade in all business centers of the country is feeling the effect of prosperity which has come to agriculture. The volume of business begins to approximate that of 1892. The situation warrants the prediction that during the autumn of 1897 the volume of transactions will exceed that of corresponding months in any year in the country's history, speculation adding to the steadily increasing cash transactions in domestic and foreign trade. A country whose clearings exceed one billion dollars a day may be expected to show phenomenal inflation of credit transactions when circumstances favor it, just as it shows extraordinary reductions of totals when they are adverse. Everything points this year to a large profit for cotton, wheat, corn and live stock producers and with these, the trader is as certain to get profit out of his sales and the manufacturer out of his product as the sun is to rise tomorrow.

## CRUSHED BY GOOD TIMES.

Ex-Governor Campbell of Ohio, remarks very heartlessly that dollar wheat and the heavy increase in gold production are hurting his Bryanite friends in that state. The business prosperity, too, and the drop in silver damage them. In fact, the poor Bryanites are hit from so many quarters this year that neither themselves nor anybody else will, after the election, be able to correctly appraise the different influences which will have combined to crush them.

There is sense in the plan of shifting the surplus population from mining towns to prosperous farming districts. Scarcity of coal would do more to raise wages than a hundred speeches by Ratchford.

Our exports for the last fiscal year amounted to a billion and a third of dollars. This record is a good one but the second year of the McKinley administration will double discount it.

The Milwaukee Sentinel calls attention to the fact that no horse ever paced a mile in less than two minutes under a democratic administration.

Nobody talks about failures now. Everybody is thinking about success.

Free silver has had all the noise knocked out of it.

## DAVID JOHNSON LEFT \$25,000

Will of the Well Known Fulton Bachelor Has Been Filed

David Johnson, who for eighty-five years led the life of a bachelor, died last week at his home in the town of Fulton, leaving a fortune estimated at \$25,000. His will was filed in the county court yesterday afternoon. Harvey Johnson, his nephew, is the nearest relative and receives all the personal property outright. The one hundred and seventy acre farm is to be his during life and is then to be long to his children.

David Johnson was a picturesque figure in the life of the county. He was regarded as peculiar but was a good neighbor. His health began to fail several months ago, and for several weeks before his death he required the attention of a nurse constantly.

The farm known as the Johnson homestead is the best known in the town of Fulton.

## WILL FAIR GROUNDS BE SOLD?

Inquirer Asks What Is to Be Done With the Property.

Editor Gazette—Are the Fair grounds to be sold, and if so, will you tell us when? Also will you tell us how many acres there are, how many buildings, and the assessed value of them? It seems as though these grounds should be kept for the purpose they are now used, but if this cannot be done there is no doubt but what it will prove valuable property to the purchaser, as being so near the city it can be platted into lots that will sell for a good price. A little advice on this subject will oblige many of your readers. INQUIRER.

## SYRIANS ARE LEAVING TOWN

They Say This Neighborhood is Peddled Almost to Death.

The Syrian colony that came to Janesville about six years ago, is being broken up. For the last two years Syrians have been coming in here a half a dozen at a time. Eight months ago there was quite a neighborhood group of them in the Second ward, and another on North Franklin street. They are now scattering to other parts of the state, claiming that this city and the surrounding country has been peddled to death.

The closing up of the manufacturing plant means the throwing of twenty-five hands out of work, the majority being girls.

## Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

WANT CLAM SHELLS  
ACROSS THE SEA

JANESVILLE SUPPLY HAS INTERESTED EUROPEANS.

Inquiries from the Government of Austro-Hungary Referred to a Local Law Firm By a Chicago Attorney—Hunters Are Stiffer In Their Prices.

Not in the United States alone can Rock county clam fishers find a market.

Austria wants them.

Harry Davenport and other shell dealers are in correspondence with New York firms, and today Fethers, Jeffris, Fildel & Mount received the following letter, which explains itself:

New York, Aug. 31, 1897.—Messrs. Fethers, Jeffris, Fildel & Mount: Gentlemen—Some European papers recently published an item informing the public that at Janesville, Wisconsin there is to be found in Rock river a kind of shell that can be used in the manufacture of buttons, and the process is described. It is stated that the supply of these shells seems inexhaustible and that it is very easy to dig them out, as the river is shallow, and while the price is only one cent per pound, the people that trade in these shells get large returns.

The government of Austria-Hungary has sent me that clipping and desires to know whether the things related therein are true.

I have no means of information and do not know of any other way of informing myself but to impose upon brotherlawyers and ask them for information. Will you be kind enough to furnish me that information, and tell me what you know about the matter in question or at least suggest a way by which I could get at the facts. Any information you can give me will be highly appreciated and I shall be glad to reciprocate at any time. Thanking you in advance for your kindness, I am yours very truly,

ADOLPH D. WEINER.

Clam hunters say that there are great quantities of shells to be had in the city, but that nobody is willing to sell for \$5 or \$6 a ton. Most of the shells are held at \$20 a ton and back yards in the Fourth and Fifth wards are piled full of them.

## NO RIGHT TO PASS SENTENCE

Justices Cannot Send Boys to Waukesha For Incurability or Vagrancy.

The state board of control has just made an important decision in reference to committing boys to the State Industrial school at Waukesha. Commitments to the school are: First, for crime; second, for vagrancy, and third for incurability or vicious conduct. The custom has been for courts of record and justices of the peace to commit for any or all of these causes. The question was recently raised whether a justice could commit for vagrancy or incurability. The matter was brought to the attention of the board, and after consideration and investigation by the members was referred to the attorney-general. That officer has answered the question in the negative. There are comparatively few now in the institution for those causes, and they will be soon discharged, or, if deemed desirable, returned to the county authorities for further proceedings. The board is anxious that the various justices of the peace know that they have exceeded their jurisdiction in committing boys for vagrancy or incurability. The superintendent has been instructed to receive no more commitments of that kind.

FIGHT WHEN YOUNG  
IN TOWN OF ROCK

SIXTEEN YEAR OLD BOY IN COURT TODAY.

Michael Schard Arrested For Beating Up the Face of James Cassidy—William Jones Called Up For Writing Insurance in Companies Not Operating in the State.

Michael Schard, of the town of Rock, a husky 16 year old, was brought before the municipal court this morning charged with seriously disfiguring the face of James Cassidy, a neighbor. It seems that the "beats" tried to get into a grain stack from which Schard was pitching bundles to a fishing machine and that the latter objected. When arraigned Schard pleaded "guilty" in fact after one look at Cassidy's face he could not conscientiously do anything else. He was fined \$5 and costs and a total of \$10.87. He was shy a whole or large part of this sum and contentedly went down to jail where he will associate during the daylight hours with criminals real and alleged who travel under different aliases and are defendants on states' prison charges.

Say He Wrote Bad Insurance.

The case of William Jones of Clinton, charged with unlawfully soliciting insurance at Clinton, was called this afternoon. Mr. Jones, it is said, wrote a policy on certain of the chattels of H. B. Colgrove in the Atlantic Fire Insurance company, of Richmond, a company which it is alleged by the prosecution, was not at that time authorized to do business in the state of Wisconsin. A fire burned up Mr. Colgrove's goods, and he found it impossible to collect his insurance.

The insurance was written on June 27, 1895, and the present suit begun April 20, 1897.

No progress was made in the case today, and adjournment was taken until Sept. 7.

BENEATH DEATH'S CLOUD

Funeral of Oliver C. Bladon

Funeral services for Oliver C. Bladon were held this afternoon at the home of his parents on South Main street. Last words were spoken by Rev. R. C. Denison, pastor of the Congregational church of which the deceased was a member, and familiar hymns were sung by a quartet from the church choir.

The attendance of friends with their sympathy silent and spoken, and the tender of their kindly offices told how nearly this sudden bereavement had come to the hearts of many of our people. Selected from high school and Sunday School classmates, Fred Sutherland, Samuel Echlin, Mark McNamara, Carl Litta, Theodore Smith and John McElroy bore the casket and thus they laid to rest one whose young life had been such a well spring of hope and promise to his parents as their first born child and only son; whose companionship was the joy of his sisters; and whose qualities of head and heart made him at once a leader and a favorite among his fellows.

Born in Janesville, December 29, 1879, his life had been lived before his friends, and these numbered all who knew him. He was a member of the senior class in the High school, where he showed an aptness for learning that made his school work an easy task, while his buoyant spirit and unbounded vitality made him a sharer in all the sports of his companions. Though outwardly strong and full of life, he had been at times an intense sufferer from a complaint which finally ended the end but a few hours. In all these times of pain he had borne himself with the same manly courage which proved the hero that he showed himself when he bravely and cheerfully met the end, if it was to prove.

To all the members of the family in their loss, the sympathy of our townspeople will go out, and in an especial measure to the father, between whom and his son the relationship had been so beautifully marked in its mutual companionship, love and confidence.

"The grave itself but for a time  
The tender bond shall sever;  
His hand who rent shall bind again  
With firmer ties the broken chain  
To be complete forever."

Mrs. Daniel Scofield.

Mrs. Daniel Scofield died at her home 104 South Franklin street at 7:30 last night. Mrs. Scofield was born at Saratoga, New York, February 11th, 1809. On December 16th, 1827, she was married to Daniel Scofield, and soon afterwards they were removed to the west. Her husband died October 24th, 1885.

Mrs. Scofield has been ailing for some time, but it was not until two months ago that she was considered dangerously ill. Her death is due to infirmities of old age. She leaves no children and no near relatives, the only relative being a cousin, Mrs. Nancy Miles, of 109 Park Place.

The funeral will be held from the residence tomorrow at 2 p. m. Those wishing to view the remains may do so from 10 to 12 o'clock.

Mrs. Christina Merkel.

Mrs. Christina Merkel died at the home of her daughter, Mrs. Margaret Battry, 252 Linn street, at 6 o'clock last evening, in the eighty-first year of her age. She was born in Germany in 1817 and came to this country in 1845, locating at Watertown, Wis. She leaves to mourn her loss one daughter, Mrs. Battry, and one son, L. J. Merkel, of New York, six grandchildren and three great grandchildren.

Funeral services will be held Friday at 2 p. m. from the home.

WHY HE OPPOSES DEPOT PLAN

Frank S. Baines Says It Will Be Hard On Farmers.

A chance of contest over the depot matter has again arisen. Frank S. Baines and the Wisconsin Carriage Top Company are understood to be unwilling to permit Wall street to be closed.

"It is not a mere whim on my part," said Mr. Baines. "My warehouse is on Wall street and if Wall street were closed, it would interfere greatly with the delivery of tobacco by farmers. They dislike to cross many tracks and if Wall street were closed, they would be obliged to use the Five Points crossing, which is a network of tracks and is very dangerous. I am inclined to think I should have good grounds for a damage suit against the city if the street were closed."

ALL SOULS CHURCH  
WITHOUT A PASTOR

REV. VICTOR E. SOUTHWORTH HAS RESIGNED.

His Friends Hint That Antagonism Developed During the Last Campaign Is Responsible For His Retirement—He Will Continue to Reside in Janesville.

All Souls church will not be reopened until another pastor has been secured.

Rev. Victor E. Southworth has resigned his pastorate. About last election time, when it became known that Mr. Southworth was an interested supporter of the silver side of the issue several of his former friends, he heard, swore to make it so hot for him that that he could not stay. The announcement of his resignation would seem to indicate that they have succeeded.

Mr. Southworth will engage in literary pursuits and for the time being will remain in the Rocky Mountain region where he has been spending the summer vacation. He will still retain his residence in Janesville and it is understood he intends later on to organize a new religious movement in this city which shall be in every sense a free church without any sectarian or denominational entanglements.

Philanthropy and science occasionally get on speaking terms with one another. When they do, it is a good thing for humanity.

A Buffalo woman has embarked in a new work which will excite wide interest because it is one of practical reform. She needs for it a need of the hour, and the woman is Dr. Sarah Howe Morris, known by thousands to be giving a lifetime to loving, earnest work for the good of the world.

For years and by degrees Dr. Morris has been getting to this special task—ne scientific and effectual raising not of the dead, but of those sometimes more hopeless, the inebriate. She has endeavored to reach them through the Woman's Christian Temperance union; she has looked into prohibition; she has labored with drunkards individually and in the jails. Twenty-five years ago she established in Brooklyn the famous Morris home, where hundreds of inebriates were cured simply by the power of good hygienic living and wholesome teaching. But there has always been something lacking until the year of grace 1896. What that something is and how she found it make a very interesting chapter of their own.

"Thirty years ago Horace Greeley said, 'Drunkness is a disease, not a crime,' and he was roundly abused for his idea. The habitual drunkard was the cherished target of the pulpit, the press, the reformer and the judge, and these powers refused to have their bulls-eyes knocked out in that easy way. The drunkard was jailed with enthusiasm, and he has been kept jailed most of the time since at large expense to him and to us. It is only of late that Greeley's advice has struck home, and by the help of scientists we are finding that it is as wise to imprison a man for drunkenness as it is to 'cage' him for rheumatism. His disease may be, often is, his own doing—most diseases are the result of our own mistakes—but a disease, dipsomania, remains, and we now rightly turn to the physician for the solution of the great temperance problem."

Dr. Morris was one of the first to come out and agree with Mr. Greeley, and she has her fall of a very interesting

DR. SARAH HOWE MORRIS.

ing correspondence which the two carried on over the situation. The inebriate was a sick man. He needed medicine. Man cannot live by bread alone nor can the drunkard be cured by moral suasion. After awhile the home in Brooklyn was given up, but through all these long years of heavy and varying labors Dr. Morris never gave up her hope of finding a remedy, a specific, for the liquor habit.

Strangely enough, for many of us look for nothing practical from a reformer, the suggestion that led to Dr. Morris' new work came from Francis Murphy. While visiting at her Buffalo home he told her of a liquor cure which was being used with great success. She immediately went to Chicago, investigated the remedy and was convinced that at last the lacking something was in her hand.

With this remedy at her command, with a determination to begin anew with the work of raising broken men and women from worthlessness to usefulness, and with a preparation, an experience and a personality extraordinary, Dr. Morris has opened a home here for the cure of dipsomania and the morphine habit. She will not have it called an "institution." It has none of the earmarks, or hall marks, one might say, of an institution. It is a home in every sense of the word.

She is decided about another phase of the matter also. It is not a cure for worthless creatures, but a veritable door of hope for men—men worthy of the name—who have fallen through drink. There is no shutting our eyes to the fact that there are thousands of these brainy, educated, valuable men and women drifting round like wrecks. This is the class she chooses to set back into prosperity and peace.

It is interesting to see the home life under her regime. It might be copied in all homes to advantage. There is proper living without too much rule, there is earnest direction without dictation, there is encouragement without palaver and goodness without cant. Of course there is good cheer, for while Dr. Morris is able to bring a good, big thunderstorm down upon things when they need clearing she herself is a veritable sunbeam. —Buffalo Express.

## Trained Nursery Maids.

In these days when all fields of work,

especially woman's work, are said to be overcrowded it is a relief to find one exception. This exception is the profession of trained nursery maids, the demand being from 50 to 100 per cent greater than the supply.

"We can graduate only about 23 girls a year," said the superintendent of the New York Training School for Nursery Maids, "and we have applicants for several hundred during that time. The subject of training nurses for the care of children is receiving each year more attention, and intelligent parents are beginning to feel that the old idea that any person could mind the baby is about exhausted."

"In our training we do not attempt to give medical knowledge, for we consider 'a little knowledge a dangerous thing,' but we seek to make them capable of taking a healthy baby and keeping it healthy. The nurse learns nursery hygiene in its broadest sense with the rudiments of kindergarten. As a life work for women this profession seems much to be preferred to that of a shop or a factory girl. We have applicants for our graduates from every state in the Union and almost every country in the world. Several of our graduates are abroad now as nurses in the families of the nobility. Of course, as I remarked at first, the demand is greater than the supply, so we are forced to answer 'No' many times where we would be only too glad to supply a good nursery maid. Only a short while ago we had an application from the West Indies, and the place was an admirable one, but we had no one to send there. Every girl graduated is already engaged."

"During the last two years there have been similar schools founded in Montreal, Newark, Brooklyn and Detroit. All of these institutions have been modeled after this school. The managers of one of these have frequently visited us, and in one case sent their superintendent to us for several months' experience. Whenever a new institution of the kind is projected the call immediately comes, 'Have you not some one whom you can send to us to organize the work?' We are always forced to say, 'No.'"

## Woman Engineers.

The Engineering Record notes the fact that female draftsmen have for several years been employed in architectural and other offices in clerical and copying work chiefly and that one woman in the Chicago drainage canal engineer's office is doing creditable map and color work. A firm of architectural engineers in New York has gone beyond this and employed one young woman who has graduated from an engineering school and shares the ordinary duties of her associates, though, of course, at a disadvantage concerning shop, mill and field work.

This moves The Engineering Record to say: "Every encouragement should, of course, be given to extending and developing the scope of suitable female employment, but it should not, in the novelty of a new field, be forgotten that the profession of engineering is a most jealous mistress and exacts the utmost effort and eternal enthusiasm, together with indomitable perseverance and persistence and superior special qualifications and sound judgment from those who are to secure a permanent foothold or acceptably to perform the responsible duties assigned the engineer. No transient occupation or divided aim is tolerable. The profession must be supreme, and, further, to be truly a competent engineer involves the necessity of intimate acquaintance with all the practical sides of the work—the reconnaissance, the location, trial surveys, years of patient study and laborious physical work in the mines, mills and shops, life in camp and in the field, hazardous duties faithfully performed on the dizzy heights of lofty false work for erection, handling of iron and machinery in tunnels and excavations, blasting and building as well as drawing or even calculating a plan, and these lessons are not only necessary to success, but for the safety of lives and property always dependent upon the engineer's constructions."

## The Girl Bachelor.

There is no occasion to commiserate the condition of the girl bachelors who keep house. They do not want it, but are rather to be envied. This is a matter of wonder to those who worry about women going into trade on the ground that it will destroy their love of home. On the contrary, it develops it. The woman who is forced to earn her living and resents it seeks the consolation of a boarding house. The real girl bachelor, at least the sort with whom I have come most in contact, is not a disgruntled person who has known better days and always takes pains to remind you of it. She is a healthy, hearty being, who wants, to be sure, to help out the family income, to relieve her father of at least one of his burdens, but she is, more than anything else, an actual homemaker and a housekeeper.

It is the girl bachelor who loves children and is not ashamed to say so, the girl bachelor who lives not unto herself, but to all the world, because no visitor is so unwelcome that he may not have a cup of tea and a cracker, be his visit ne'er so untimely. It is the girl bachelor who does not apologize for dust, or care a rap for what the neighbors think, or hope to marry a rich man. She is the future mother, because the voluntary one, of better men and women. My sunbonnet is off to her. She is

settling the woman question while other people talk of it. Financial independence for herself is the explanation of everything. —St. Louis Post-Dispatch.

A woman's journal has been started in Constantinople, in which the doctrine of the equality of the sexes is vigorously advocated.

"Do you think it's true that every man has his price?" asked the heiress.

"I'm sure I don't know," he answered thoughtfully, "but if you want a bargain you needn't look any farther." —Chicago Post.

## Fact and Fancy.

Pretty Young Wife—Oh, my dear, this new hat is a dream—a perfect dream!

Practical Husband—I wish to goodness that this bill which came with it was also a dream! —Tit-Bits.

## Forgot Himself.

"Our ice-man must be very absent minded."

"Has he failed to send in a bill?"

"No; but this morning he left us a lump of ice as big as a hailstone." —Chicago Record.

## Encouragement.

Cholly—And old Cashburner sent you those diamonds? There's no fool like an old fool, is there?

Miss Frontrow—No. But you're not getting any younger, Cholly. —N. Y. World.

The scheme of the company includes the construction of an aerial cable tramway from the foot of the canyon on the summit of the pass; also the building of a wharf at Dyea.
